NET CONTENTS: 1 US GALLON / 3.8 L

Dura-Clean™ is an alcohol and phosphate free ultra-foaming cleaner containing proprietary polymeric thickeners that provide superior foam adhesion and surface wetting which penetrates heavy soils. The improved contact time and penetrating power created by Dura-Clean's™ exclusive "Spray and Stick" formulation delivers enhanced soil removal providing superior cleaning results especially on vertical surfaces. This superior cleaning ability will allow for improved secondary disinfection.

DIRECTIONS FOR USE

Add 4 oz to 8 oz of Dura-Clean™ to each gallon of water.

Apply with low or high-pressure foam-generating equipment and allow to soak for 10-30 minutes.

Rinse surfaces with water and allow to dry before applying secondary disinfection.
