

Proxy-Clean® Brand

FOAM-CLEAN™

An additive that when mixed with a solution of Proxy-Clean® and water, creates an ultra-low pH foaming Hydrogen Peroxide solution.

Net Contents: 1 US Gallon / 3.8 L • Contenu Net: 1 Gallon E.U. /3,8 Litres

DIRECTIONS FOR USE:

Poultry house floor spraying to lower the pH of the treated surface:
Apply the solution to the concrete or dirt pad after cleanout.

NOT INTENDED TO TREAT POULTRY LITTER/BEDDING

Mix Proxy-Clean® with water and Foam-Clean™ to the following stock solution/premix:

Proxy-Clean®	Water	Foam-Clean™	Treated Square Ft.
20 Gallons	180 Gallons	6 Gallons	20,000 sq. ft.

When adjusting for different square footage, maintain the same ratio of Proxy-Clean®, Water, and Foam-Clean™, and apply approximately 10 gallons of solution per 1,000 sq. ft. of pad.

DO NOT EXCEED 1 GALLON OF PROXY-CLEAN® PER 1,000 SQ. FT. OF PAD

Apply the solution to the concrete or dirt pad through a high-pressure sprayer and allow to dry before placing litter back on the pad.
