

Triple-C®

Triple-C®

Triple-C® provides a unique scrubbing action that effectively loosens and removes scale, mineral and heavy metal deposits from cool cell pads. By removing the scale and mineral buildup, Triple-C® provides complete cleaning of your cool cell pads while saving you from expensive pad replacement costs.

Equipment Friendly

- Won't harm cool cell pads, piping, or delivery systems equipment
- Chloride/Chlorine free, greatly reducing the potential for corrosion

Foaming Cleaner

- Scrubs cool cell pads to remove scale and mineral build up

Environmentally Safe

- Environmentally friendly and fast acting

Affordable

- Avoid expensive pad replacement costs
